Dear Parent/Guardian,

PNGISD is pleased to provide laptops for high school and middle school students for the 2011-2012 school year. Sixth , seventh and eighth graders will leave their laptops at school unless they wish to check out a loaner laptop at which time the guardian will need to sign a loan agreement where in they will be responsible for the replacement cost of the unit. Laptops will not be taken home during the summer. These laptops are to be used by the student for learning purposes only. Please note the following conditions of the program:

- Student laptops are to be checked in on the first day of the school week. The student may barrow a laptop after check in.
- 6th, 7th, and 8th grade students will be allowed to borrow a laptop to bring off campus if a guardian will sign and return the laptop loaner agreement.
- If a laptop is lost or stolen, you are responsible for the replacement cost.
- Laptops that are not returned when a student checks out of school will be considered stolen. Theft charges will be filed.
- There is an Internet filter loaded on each laptop that will filter content both at home and at school. However, parents are ultimately responsible for monitoring student laptop use at home.
- There are fines associated with damaging the laptop. These fines are listed in the **Student Laptop Handbook**.

The **Student Laptop Handbook** is available on our campus webpage and a copy will be available in the school office. Please review this Student Laptop Handbook with your student. LOAN OF COMPUTERS AND LAPTOPS

Port Neches-Groves ISD is committed to the importance of a student being able to continue with his/her work when a laptop is experiencing problems. To assist with this problem:

Network Student Drives

All students have a network folder for their use. Students can save important work in this folder. This will allow them to access needed material from anywhere on the network. Homework files should be saved to a flash drive for access at home.

Loaner Laptops

If a laptop is damaged, it will be repaired as quickly as possible. If available, a loaner laptop will be issued. However, the loaner laptop must be kept at school at all times. If the child needs use of the laptop outside of regular school hours, the student can come early or stay after school to use the laptop for school purposes.

LAPTOP SECURITY

Security software is installed on all laptops. We have tried to strike a balance between usability of the equipment and appropriate security to prevent the units from being damaged or used to cause damage to the Port Neches-Groves ISD system. Three primary forms of security exist:

Desktop Security: Security is in place on the desktop to prevent certain activities. These include downloading or installing software on the laptops, removing software, changing system settings, etc.

Filtering Software: Port Neches-Groves ISD maintains an Internet filtering software package on-site. This program automatically filters all student access to the Internet. In addition, there is filtering software installed on each laptop. This filter will run when the students are at home and will help insure safe access to the Internet.

Antivirus Software: Port Neches-Groves ISD provides antivirus software on the student laptops.

The PNGISD Acceptable Use Policy can be found on the district website at www.pngisd.org under Departments / Technology.
